HUMAN SOCIETY AND ITS ENVIRONMENT (HSIE)
JUNIOR HISTORY

Our Mission
We believe a knowledge of ancient civilisations, the Middle Ages, and the history of Australia in the 20th Century is an essential ingredient in producing an informed citizen of Australia and the world. At Masada we cover the compulsory components of the syllabus and also a history of the Jewish people.

The framework provides a set of broad learning outcomes that summarise the knowledge, understanding, skills, values and attitudes essential for all students to succeed in and beyond their schooling. Students that study History at Masada develop knowledge and skills that enable them to:

- Understand, develop and communicate ideas and information.
- Understand and appreciate the physical, biological and technological world.
- Understand and apply a variety of analytical and creative techniques to solve problems.
- Understand, interpret and apply concepts related to patterns, structures and relationships.
- Develop a system of personal values.
