See for yourself. The surprising impact of Israeli Art.

Come see the new wave of Israeli artists in the studios and galleries of Tel Aviv, Jerusalem and the North. See what inspires them - from their political reality and search for identity, to the tumultuous conversation of Bauhaus architecture and cooperative apartments meeting the soft Mediterranean shore, sharing the food and language of a thousand cultures.

Find out why Israeli art is being featured in important international venues like MOMA and the Venice Biennial, and selling for millions in Sotheby auctions.

Join an art seminar of Israel this Winter and have an unforgettable experience.
