ROOM: Classroom 3
LOCATION: Masada College
FOR: Year 10, 11 and 12
WHAT WILL BE COVERED: who is eligible to, how to apply, ATAR requirements, what sort of experience Co-op Scholars have

COLLEGE IN THE USA

Considering University study in the USA, There is an Information night coming up in late August. “US College Night” is a wonderful opportunity to learn more about the college admissions process in the United States.

The US college admissions process is confusing and can be overwhelming. It requires a significant time commitment in order to maximize results. Students should begin developing a strategy for their applications early in order to lay out a timeline and avoid the conflict with HSC exams.

DATE: Wednesday, August 22nd
TIME: 7pm at
VENUE: The University of Sydney.
REGISTRATIONS: www.trybooking.com/BOWK. Reservations are essential as presentations typically book out. I encourage those interested to RSVP as soon as possible to avoid disappointment.
COST: Nil

The evening is “information intensive” and will provide an opportunity to become familiar with the process, deadlines and requirements for applying to US colleges. Reference materials will be provided and attendees will be able to ask specific questions at the conclusion of the presentation.

Registration for the “US College Night” is available online at www.trybooking.com/BOWK. Students are encouraged to attend with their families and there is no limit on the size of the party.

Individual consultations will also be available for students and their families. These one hour meetings will be held at The American Club during August and September. Families seeking personal guidance regarding the US admissions process can e-mail collegeconsultinginternational@gmail.com to schedule an appointment. Space is limited and the best time slots fill early.

MEDICINE

UNSW Medicine Information Evening Video
For those of you who are interested in Medicine but didn’t get a chance to go to the UNSW Information Evening held early this year, it was recorded and I have included a link to the recording below. The quality of the audio is not fantastic, but definitely worth a listen.

NOT SURE WHAT DO WHEN YOU FINISH SCHOOL?

Key Strategies to consider:

1. **Careers Adviser One: One Discussion** - Make an appointment to see Ms Hughes to brainstorm ideas and options. E-mail shughes@staff.masada.nsw.edu.au or drop by to make a time.

2. **Use Career Assessment Tools to generate career ideas.**
   a. **iPQ Career Planner app - you need an iphone for this one.** This is a great new tool from a well regarded Psychometric Test provider, SHL and takes about 20-25 minutes to complete. At the end it will give you a report that summarises your key strengths and offers suggestions of jobs and fields that may suit you based on your strengths. It also has a very useful section on making the most of your strengths and improving your weaknesses, which would be valuable when it comes to preparing for selection interviews for Medicine, Cadetships or any course that has an interview as part of its entry process etc. [Open website](http://itunes.apple.com/us/app/ipq-career-planner/id400926227?mt=8)

   b. **My Future** - The myfuture website is a one-stop shop of career information. It is an interactive resource, with tools and information that allow people to investigate career pathways and opportunities. There is comprehensive information about occupations, courses, state labour markets, job hunting tips and much more [www.myfuture.edu.au](http://www.myfuture.edu.au)

   c. **Bullseye Posters** - Bullseye posters are a great way to start exploring the school subjects you like and are good at, and the jobs those subjects might lead to. The **posters cover more than 30 different subjects** and list the hundreds of occupations related to each one. [www.deewr.gov.au/bullseye](http://www.deewr.gov.au/bullseye)

   There are copies available of the Bullseye Posters booklet at Careers Office, drop by to pick one up.

   d. **Job Guide** - Job Guide has in-depth information about 500 entry-level occupations. In particular, **it explains the education and training pathways that lead to each job**. This can help young people to determine what jobs might suit them. The guide also has a helpful glossary of useful terms. Job Guide is produced annually and is available online at [www.jobguide.deewr.gov.au](http://www.jobguide.deewr.gov.au)

   There are copies available of the Job Guide at Careers Office, drop by to pick one up.
**e. Careers FAQ:** The FAQ book series is an excellent Australian resource that provides an overview of each industry and the employment prospects and opportunities.

The Careers Office has 20 of the titles in hard copy including:

- Accounting
- Advertising
- Banking Careers
- Building and
- Careers@gov.au
- Design Professionals
- Education
- Engineering
- Financial Planning
- Going Global
- Hospitality
- Information Technology
- Investment Banking
- Law
- Legal Careers
- Medicine
- Property
- Publishing
- Save the World

......... plus loads more as e-books. E-books can be e-mailed to you on request
