Minecraft After-school Programme!! Masada College.....

Where: Masada College, St Ives

Day: Wednesdays

Starts: 14th November
Finishes: 12th December.

Time: 4.00 - 5.30pm

Cost: $169.00

5 week course

If you cannot make a lesson let us know and we will adjust the cost accordingly.

These exciting Minecraft educational workshops represent the future of learning for students. Set up in a virtual learning environment, students are presented with a range of Engineering, Architectural, Design and Problem-solving challenges.

Students will improve learning in subject areas including Science, Engineering, Technology and Design.

Students will be challenged to develop the most incredible architectural structures and designs as individuals and as part of a team.

This exciting 21st century learning represents the future of education and is incredibly exciting for students to take part in while at the same time developing important career skills in lateral and high-level thinking.
